

Website Design & Development

IMPREMIS
MARKETING

We design, optimize and develop websites that convert.

Utilizing modern wireframes and a hi-fidelity design, Impremis will build and develop a responsive, up-to-date website that will attract your target audience and take them on a journey from being a first time visitor to a loyal customer with the help of a pre-optimized website.

Custom coding

OBJECTIVES

To provide a seamless end-to-end website design and development process that **guarantees** the website you're looking for.

What determines the price:

- Amount of pages
- Amount of sections
- Functionality
- Integrations and plugins
- Platform built on
- The theme chosen (if any)
- Expected date of completion
- The copy and imagery requirements
- The SEO requirements

AVERAGE PRICING

Single Page Site (Average Cost)

\$750

eCommerce Store (Average Cost)

\$3,750

For stores with dozens of products.

Per Design

Per Development

Per Project Work
(Design + Development)

**Pricing can be changed based on price determinants
**Please note that nothing is guaranteed but our experience is structured to optimally get you to the point of satisfaction.*
